PRESS RELEASE - PowerQuip Corporation is the new EvapTech Sales Representative

EvapTech, Inc. is pleased to announce that the PowerQuip Corporation has joined the EvapTech sales team to meet the new, replacement, after market services, and parts cooling tower needs of our customers in the Utah, Colorado, Wyoming, and Northern Nevada areas.

EvapTech, Inc. is a subsidiary of Evapco, Inc., an employee owned manufacturing company with global resources and solutions for worldwide heat transfer applications. EvapTech is a premier cooling tower designer, manufacturer, and contractor providing *Innovative Cooling Solutions* for the satisfaction of customer needs in the power generation, industrial, and refrigeration and HVAC evaporative cooling markets. EvapTech offers new and replacement field erected cooling towers and a variety of field erected cooling tower parts and after market services.

PowerQuip is a leading manufacturer's representative serving the Power, Oil and Gas, and Process industries for over 20 years. In our contractual relationship, PowerQuip will work with EvapTech to present innovative solutions to customer problems; help to assure that parts and service are maintained at customer sites; and to introduce new technologies that enhance reliability, performance, and operation of existing equipment.

The PowerQuip team representing EvapTech comes from multi-talented and diverse backgrounds. They are committed to provide the highest level of customer service. The company is staffed with well trained and attentive customer service staff. They are available on a 24 hour 7 days a week basis. The key managers for the company are as follows:

David Dallof is the president of PowerQuip. David graduated with a degree in Business Administration from Weber State University. His background includes various positions in energy industries as well as key positions within major companies in Sales management, marketing, and training. He began fulfilling his dream of owning one of the top manufactures agencies in 1997 and is deeply grateful to his customers for their assistance in realizing this goal.

Ken Hall manages sales division of PowerQuip. Ken has a marketing degree from Weber State University. At PowerQuip, Ken specializes in working with industrial and utility customers on boiler optimization, cleaning, and management issues. As a co-owner of PowerQuip he has gained a deep knowledge of plant operation, problems and associated cost effective solutions.

Sean Raborn manages our Denver Colorado Sales Office. Sean has a mechanical engineering degree from the Virginia Military Institute. Upon graduation in 1990 he began his 14 year career with Framatome ANP, Inc. Over the years he has acquired an extensive array of skills including high level selling, product development, contract negotiations, strategic planning, proposal development and presentation. Sean's strong technical background, entrepreneurial spirit, and love of Colorado led him to PowerQuip.
